

Advanced Digital Evidence Collection Report

Evidence Item	Description	Collected By	Date	Hash Value	Evidence Item
Memory Dump	Server-Y Memory Capture	SOC Analyst	18 Aug 2025	ABCD1234EF GH	Memory Dump

Digital evidence was collected following standard forensic procedures to maintain integrity and chain of custody. Memory and network data were acquired from the affected system and hashed using secure algorithms. The collected data will be used for further forensic investigation and analysis.

Chain of Custody:

All evidence was securely handled and documented to ensure authenticity and admissibility.
